

Is your kitchen just for cooking? Is your bedroom just for sleeping?

The rooms in your home are used in all kinds of different ways - adventuring, singing, playing, discovering... In every house on every street the rooms inside are very different.

Print this page, place it blank side up, then fold the edges to the middle, like a cupboard. Open up the house and draw a room where you live. Who uses it? What do you use it for? What is your favourite thing inside? Houses look different from the outside, too. Why not fold a blank piece of paper and draw your house on the outside instead?
